### Specifications

<b>FleXtents</b>	FleXtents is the ultimate tent, usable for a multitude of activities. These tents are uniquely designed. The Flexframe-construction type, which makes them the most mobile at diverse system on the market. The construction method is a result of many years of tests and intense product development to create the most versatile solution.
<b>Usability</b>	Events, shows, advertising campaigns, racing, market tents, party tents, or as a service tent. FleXtent is the most flexible solution on the market, with a plethora of accessories for an individual fitment. It is even possible to put several Flextents together by fitting a gutter rail between the canopies.
<b>Just FleX it..</b>	The FleXtents construction method makes it very easy to put up anywhere. It takes less than a minute to put up, and your show-stand is up and running without the use of tools; simple and straight forward.
<b>Frame</b>	Light and robust Flex-construction, made available in a strong steel version or in an exclusive light weight aluminium version in top of the line quality. Just Flex it..
<b>Sides</b>	The tents can be supplied with sidewalls with zipper, whole sidewalls, sidewalls with a big panorama window and half sidewalls.
<b>Tarpaulin</b>	Heavy duty 500 denier polyester surface with PVC coated backside and waterproof stitches. The whole tarpaulin is made from a flame retardant material which is accepted at most event fairs.
<b>Colours</b>	Add a bit of colour to your show. Flextents can be supplied I 12 optional colours black, dark blue, blue dark green, green, turquoise, red, orange, gold, yellow and grey. Although it is no secret that white is our best selling colour.
<b>Anchoring</b>	The tents can be supplied with weight discs, or additional ground pegs and storm kit.
